

# Safend Encryptor, full data hard disk encryption

## Encrypt it, for when you need it

They may take your computer, but not your information

Solving encryption complexities, Safend Encryptor, a transparent data encryption tool, fully protects your company's private information. Encryptor quickly enables a company's compliance with regulatory, data security and privacy standards. At-a-click, Encryptor employs AES-256 algorithm for a company-wide encryption and decryption solution. Encryptor achieves an optimum balance between security, productivity, and performance without interfering with daily work activities. A true single-sign-on product, providing a secure answer for data at rest, Encryptor also offers advanced decryption and data recovery services via a machine-specific one-time only server key.

## Safend DPS, the Data Protection Suite

One DPS suite, one DPS agent

**Protector:**  
controlling port  
and device endpoints  
and media encryption

**Encryptor:**  
transparent encryption  
on laptops and PCs

**Inspector:**  
inspects, classifies and  
blocks sensitive data leakage

**Discoverer:**  
locates and maps  
sensitive data at rest

**Reporter:**  
regulatory compliance  
reports and security  
log summaries

**Auditor:**  
immediate risk detection  
on WiFi ports/devices  
connected to endpoints

## Full compliancy to data security regulations and privacy standards

- Transparent access to encrypted data via a Windows login
- Strong decryption and data recovery tools
- Automatic generation and storage of encryption keys prior to actual encryption
- Detailed logs and reports on security breaches, encryption status and administrative activities
- Multi-tiered anti-tampering capabilities, fully protecting organizational data
- Automatic synchronization with Active Directory

## Multi-factor authentication

Transparent provisions for multi-factor authentication devices that change user customized login interfaces. For example: smart cards, USB tokens and biometric IDs supported by Windows.

## Supported by Safend Encryptor

### Certifications

- Common criteria EAL2 certified
- FIPS 140-2 validated

### System Requirements – Agent

- Windows 7 Home / Enterprise / Ultimate 32-bit / 64-bit SP1
- Windows 8 Pro / Enterprise 32-bit / 64-bit
- Windows 8.1 Pro / Enterprise 32-bit / 64-bit
- Windows 10 Pro / Enterprise

### System Requirements – Server

- Windows 2008 SP1 Server
- Windows 2008 R2 Server SP1
- Windows 2012 Server
- Windows 2012 R2 Server

## About Safend, a SuperCom Company

Safend are providers of security products designed to protect against corporate data loss via comprehensive data encryption, port control, device control and content inspection solutions.

With over 3,000 customers worldwide and 3 million licenses sold, Safend software is deployed by multi-national enterprises, government agencies, healthcare organizations and small to mid-sized companies across the globe.

Founded in 1988, SuperCom is a leading global provider of advanced tracking, identification and security solutions. Working as partners and promoting transparency and ethical business practices with their investors and with over 3500 customers and 20 governments worldwide, SuperCom is a publicly traded company on NASDAQ National Market (SPCB).
